

STA-LOK® is a positive locking feature that comes with Carbon Steel or Stainless Steel hitch pin clips. You may also substitute a padlock in place of the hitch pin clip. Proper use of these mechanisms can help prevent spills by keeping the cam arms from opening under adverse conditions, such as high vibrations, pulsing, wear, and hazardous materials. **STA-LOK® couplers meet the Coast Guard ASTM 1122-87 specifications for Quick Disconnect Couplers.**
